Managing Director's Message to the Shareholders

Mr. Bipin N. Shah

Managing Director

Dear Shareholders,

One of the great privileges of working in Pharmaceutical industry is the opportunity to directly contribute towards the advancement quality of life. This has always been our greatest source of purpose in propelling Anuh Pharma forward. Today, as the world faces an unprecedented pandemic we continue playing our part in serving humanity.

It gives me great pleasure to present to you our Company's 60th Annual report, in a nutshell.

Our Operational Revenue for the Financial year 2019-20 amounted to ₹ 30,695 Lakhs as against ₹ 32,066 Lakhs for the previous year, a decrease of 4.27 %.

Our PBT has gone down from ₹ 3240 lakhs to ₹ 1,916 lakhs for this year. The main reasons for the decrease in revenue & PBT are as follows:

- I. Export restrictions imposed by Indian Government on majority of the products for February and March 2020. This step was taken by Government to avoid shortages in India.
- II. We had to write off huge depreciation due to commissioning of our expansion project.

EXPANSION PROJECT:

We are pleased to inform you that our "NEW EXPANSION PROJECT" is fully operational and due to this increased capacity, we hope to achieve at least 30% additional revenue in 2020-2021.

Moreover, we have started validation batches for: 1. Telmisartan 2. Glyclazide 3. Moxifloxacin 4. INH and we propose to start commercial production during 2nd half of 2020-2021.

We continue to allocate total resources towards building the API & Bulk Drug Segment. Our state-of-the-art R&D Facility at Navi Mumbai works relentlessly on the development of newer and better pharmaceutical raw material.

An advance stage works is going on for the following products:

1. Aripiprazole
2. Olanzapine
3. Fexofenadine
4. Sitagliptin
5. Celecoxib

COVID 19 CRISIS :

Even during COVID 19 crisis, we were successful in running our plant continuously, being an essential drug company.

We are fully complying to requisite safety norms like social distancing, sanitising, temperature monitoring, masking etc.

To ensure presence of maximum staff & workers, we have provided "pick up & drop facility" and also incentivised the employees.

GLOBAL cGMP COMPLIANCE :

During 2019-2020, we were inspected by USFDA authorities, and we are pleased to inform that we have successfully cleared the USFDA inspection without any observations by the US authorities.

Adherence to the stringent cGMP requirements of global regulators is a non-compromising objective for us. Compliance to these standards has become a key determinant of future success for the API industry. We continue to invest significant time & resources in ensuring that we remain committed to 24/7 cGMP compliance. Over the past years our cGMP capabilities have increased significantly. We recognise this as a pertinent area, and are targeting appropriate technology based solutions to facilitate cGMP compliance with an increased focus on requisite manpower training.

TRANSFORMATION:

In order to generate long term sustainable value for Shareholders, businesses need to continuously involve & transform themselves to build a strong foundation for future growth. At Anuh Pharma we have decided on a transformational journey to make Anuh Pharma a Company that is in tune with the times.

With Warm Regards,

SECRETARIAL AUDITOR

The Board has appointed M/s. MMJB & Associates LLP as the secretarial auditors for the financial year 2019-20.

The Secretarial Audit Report (Form No. MR-3) issued by M/s. MMJB & Associates LLP, Secretarial Auditor of the Company for the year ended March 31, 2020 is annexed as "**Annexure - 6**" to the Directors' Report.

The Annual Secretarial Compliance Report has been submitted to the stock exchange within the prescribed time.

Secretarial Auditors reported that:

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned in the aforesaid report except that shareholder approval for continuing the directorship beyond the age of seventy-five years of Mr. Jasvantlal Shah and Mr. Lalitkumar Shah w.e.f. April 01, 2019 was taken on April 10, 2019. However, as per listing regulation the approval shall be prior to April 01, 2019.

Management's Reply:

The resolution to re-appoint Mr. Dilip G. Shah (DIN: 01989812) as an Independent Director of the Company was indented to be proposed on 26th March, 2019. However, due to his sudden death on February 22, 2019, the Company kept the dispatch of postal ballot notice and the form on hold to recheck on the composition of the Board.

The Company therefore revised the postal ballot notice and form. The whole process of printing / overprinting consumed time resulting into delayed dispatch of revised postal ballot notice and form on March 11, 2019. Hence the approval of the shareholders' received on April 10, 2020 instead of March 26, 2020 as earlier planned.

In the resulting situation the approval of, the shareholders for continuing the directorship beyond the age of seventy-five years of Mr. Jasvantlal Shah and Mr. Lalitkumar Shah was received w.e.f. April 01, 2020 through postal ballot on April 10, 2020.

REPORTING OF FRAUD BY AUDITORS

During the year under review, the Statutory Auditors, Cost Auditors and Secretarial Auditors have not reported any instances of frauds committed in the Company by its Officers or Employees to the Audit Committee under section 143(12) of the Act, details of which needs to be mentioned in this Report.

The global pharmaceutical market is now estimated to be over USD 1.3 trillion and expected to grow at CAGR of about 4% to 5%.

Though the pharmaceutical industry is developing at rapid pace, the pharmaceutical manufacturing companies are confronted with enormous challenges such as:

Indian pharma market is expected to grow to USD 55 Billion by 2021 thereby emerging as the 6th largest pharmaceutical market globally by absolute size.

Global Bulk Drugs Market

Three segments - Branded Prescription drugs, Over-the-Counter (OTC) drugs and Generic Prescription drugs account for a majority of global bulk drug consumption.

The total global bulk drug consumption is expected to reach USD 206 billion by 2021 at a CAGR 6.5% during the forecast period out of which 80% is used for Branded Prescription drugs, 20% for Generic Prescription drugs and OTC drugs.

Indian Bulk Drug Market

India is expected to be the 3rd largest global markets for Bulk Drugs with a 7.5% increase in market share. There are 1150 bulk drug units producing about 350 important Bulk Drugs. The market analyst forecast the API markets in India to grow at a CAGR of 11% over the period of 2016-2021.

It plans for alliances with business associates in the global market, giving a huge boost to the selective products that it already deals in.

We are fully conscious of our responsibility toward our customers. Our efforts are directed toward the fulfillment of customer satisfaction through the quality of products. As the consolidation of this industry gains momentum, the need to develop a dedicated team of skilled manpower assumes urgency and importance.

We will continue to focus on training and motivation of manpower so as to develop teams of qualified and skilled personnel to effectively discharge their responsibilities in a number of projects and activities. It is, in this context, which we have been working towards promoting the skills and professionalism of our employees to cope with and focus on the challenges of change and growth.

MEDIUM TERM STRATEGY & LONG TERM STRATEGY

Medium Term Strategy:

Our Company has completed 31 years of startup of production.

All the manufacturing departments, marketing departments etc. are sufficiently matured to take up new challenges in the medium term.

We propose to start 4 (Four) new products in the medium term and apply for regulatory approvals like EDQM, USFDA etc.

For this purpose our R & D department is absolutely ready and they already have a few products queued up to take up for validation batches and commercial batches in the new plant commissioned in December 2019.

Long Term Strategy:

India is poised to become the 2nd largest producers of API in the world.

Our Company is still dependent on Intermediates mainly from China and other countries we will definitely look forward for backward integration in long term.

We also need to improve the manufacturing processes to reduce the solvent load and formation of other by-products.

This will also help us in reducing the pollution load and ultimately reducing the final product cost.

RISKS AND CONCERNS

India imports huge quantity of crude oil and variation in crude oil prices would always be an area of concern. The Company is planning to install greener technologies like briquette fired boilers, economizers etc. to save power and fuel costs.

The volatility of exchange rate of rupee against US dollar can have significant impact on the Company's profitability because approx. 40% of its sales consist of exports. However natural hedge mitigates the risk to large extent due to imports.

Macro-economic conditions like currency variations, rise in crude prices and US dollar remittance issues in Africa do affect the export of our country. However, our presence in domestic sector such risks are mitigated to some extent.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The revenue from operations for the year ended March 31, 2020 amounted to ₹ 30,696 lakhs as against ₹ 32,066 lakhs for the previous year. Thus the income from operations of the Company has decreased by about 4.27 % as compared to last year's revenue from operations.

During the year 2019-20 profit before tax as compared to last year has reduced by 40.88 % from ₹ 3,240 lakhs to ₹ 1,916 lakhs and profit after tax has reduced by 38.78 % from ₹ 2,337 lakhs to ₹ 1,431 lakhs.

We draw attention to Note no.50 of the accompanying financial results, which describes the management's evaluation of impact of uncertainties related to COVID-19 and its consequential effects on the operations of the Company. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended 31st March, 2020. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit / loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Anuh Pharma Limited** ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk

that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an internal financial controls with reference to financial statements as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- (i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (₹), which is the company's functional and presentation currency.

- (ii) Transactions and balances

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates.

(c) Revenue recognition

The Company has adopted Ind AS 115, Revenue from Contract with Customers with effect from 1st April 2018

Revenue from sale of goods is recognised; when the significant risks and rewards in respect of ownership of products are transferred by the Company, the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold and no significant uncertainty exist regarding the amount of consideration that will be derived from the sale of goods as well as regarding its ultimate collection. Amounts disclosed as revenue are net of variable consideration on account of various Discounts, Rebates, incentives offered by the Company as a part of the contract.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity.

Sale of goods

Notes on Financial Statements for the Financial year ended on March 31, 2020 (Contd..)

The entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold and no significant uncertainty exist regarding the amount of consideration that will be derived from the sale of goods as well as regarding its ultimate collection. Amounts disclosed as revenue are inclusive of excise duty and net of returns.

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity.

Dividend income

Dividend is recognized as revenue when the right to receive payment has been established.

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

(d) Property, Plant and Equipment (PPE)

i. Recognition and measurement

All items of PPE are measured at cost less accumulated depreciation and any accumulated impairment losses, if any.

The cost of an item of PPE comprises:

- a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in profit or loss.

The Company has elected to continue with the carrying value of all its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as the deemed cost as at the transition date pursuant to the exemption under Ind AS 101.

Any gain or loss on disposal of an item of PPE is recognised in profit and loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on PPE (other than leasehold land) has been provided based on useful life of the assets in accordance with Schedule II to the Companies Act, 2013, on written down value method except, useful life of Support structure for Plant differently based on an independent technical evaluation as 30 years. For the

Notes on Financial Statements for the Financial year ended on March 31, 2020 (Contd..)

following assets, based on independent technical evaluation, which is different from the useful life and residual values as per Schedule II of the Companies Act, 2013, as under:

Category	Useful Life	Residual Value
Motor Car	5 years	25% of Cost
Support structure for plant	30 years	1% of Cost

Leasehold land (other than perpetual leasehold land) are amortised over the lease period.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Profit and loss on disposals are determined by comparing proceeds with carrying amount. These are included in statement of profit and loss.

(e) Intangible assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation/depletion. All costs, including financing costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets are capitalised.

The Company has elected to continue with the carrying value of all its intangible assets as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as the deemed cost as at the transition date pursuant to the exemption under Ind AS 101

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific to which it relates.

(f) Impairment of non-financial assets

Assets that have a definite useful life are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired.

The recoverable amount is higher of the asset's net selling price or value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(g) Borrowing cost

Borrowing costs attributable to the acquisition/construction of qualifying assets are capitalized and form part of the cost of the qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue as an expense.

(h) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the

Notes on Financial Statements for the Financial year ended on March 31, 2020 (Contd..)

Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

(i) **Income Tax**

Provision for income tax is made for both current and deferred taxes. Provision for current income tax is made on the current tax rates based on the assessable income. The Company provides for deferred tax based on the tax effect of timing differences resulting from the recognition of items in the financial statements and in estimating its current tax provision. Deferred tax assets are recognized where there is certainty that there will be sufficient future taxable income available against which such deferred tax assets can be realized.

(j) **Inventories**

Inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any. Cost of inventories comprises of cost of purchase, cost of conversion and other cost including manufacturing overheads incurred in bringing them to their respective present location and condition. Cost of raw materials, work-in-progress, packing materials, trading and other products are determined on first-in-first-out basis.

(k) **Research and development**

Revenue expenditure on Research and Development is charged to Profit and Loss Account as incurred. Capital expenditure on assets acquired for Research and Development is added to PPE.

(l) **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Classification

The Company shall classify financial assets as subsequently measured at amortised cost and fair value through profit and loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes on Financial Statements for the Financial year ended on March 31, 2020 (Contd..)

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. Bonds, securities and deposits.
- b) Trade receivables - The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Financial liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit and loss.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss.

The Company's financial liabilities include trade and other payables, loans and borrowings.

Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Derivative financial instruments

The Company uses derivative financial instruments, such as foreign exchange forward contracts to manage its exposure to foreign exchange risks. For contracts where hedge accounting is not followed, such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value through profit and loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

(m) Employee benefits

i. Short term employee benefits

Short term employee benefits consisting of wages, salaries, social security contributions, ex-gratia and accrued leave, are benefits payable and recognised in 12 months. Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised undiscounted during the year as the related service are rendered by the employee.

Notes on Financial Statements for the Financial year ended on March 31, 2020 (Contd..)

ii. Defined contribution plans

Company's contribution for the year paid/payable to defined contribution retirement benefit schemes are charged to Statement of Profit and Loss

The Company's contribution towards provident fund and employee state insurance scheme for certain eligible employees are considered to be defined contribution plan for which the Company made contribution on monthly basis.

iii. Defined benefit plans

Company's liabilities towards defined benefit plans and other long term benefits viz. gratuity and compensated absences expected to occur after twelve months, are determined using the Projected Unit Credit Method. Actuarial valuations under the Projected Unit Credit Method are carried out at the balance sheet date. Actuarial gains and losses are recognised in the Statement of other comprehensive income in the period of occurrence of such gains and losses. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, and as reduced by the fair value of scheme assets, if any.

(n) Provisions , Contingent Liabilities and Contingent Assets

A provision is recognised if as a result of a past event, the Company has a present obligation (legal or constructive) that can be estimated reliably and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

(o) Earnings per share (EPS)

Basic EPS is computed using the weighted average number of equity shares outstanding during the period. Diluted EPS is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period except where the results would be anti-dilutive.

(p) Key estimates and assumptions

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the balance sheet and statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

- Determination of the estimated useful lives of tangible assets and intangible assets and the assessment as to which components of the cost may be capitalized.

Useful lives of tangible assets and intangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on management estimate, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Assumptions also need to be made, when the Company

Notes on Financial Statements for the Financial year ended on March 31, 2020 (Contd..)

assesses, whether an asset may be capitalized and which components of the cost of the asset may be capitalised.

- Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

- Provisions and contingent liabilities

The Company exercises judgment in measuring and recognising provisions and the exposures to contingent liabilities related to pending litigation or other outstanding claims subject to negotiated settlement, mediation, arbitration or government regulation, as well as other contingent liabilities. Judgment is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual losses may be different from the originally estimated provision.

(q) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs (upto 2 decimal) as per the requirement of Schedule III, unless otherwise stated.

(r) Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Fair values for financial instruments carried at amortised cost approximates the carrying amount, accordingly the fair values of such financial assets and financial liabilities have not been disclosed separately.

B. Measurement of fair values

Ind AS 107, 'Financial Instrument - Disclosure' requires classification of the valuation method of financial instruments measured at fair value in the Balance Sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to un-adjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to un-observable inputs (Level 3 measurements). Fair value of derivative financial assets and liabilities are estimated by discounting expected future contractual cash flows using prevailing market interest rate curves. The three levels of the fair-value-hierarchy under Ind AS 107 are described below:

Level 1: Level 1 Hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market are determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3. e.g. unlisted equity securities.

Transfers between Levels

There have been no transfers between Levels during the reporting periods

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used.

Financial instruments measured at fair value

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Level 2:			
Mutual Fund	Net Asset Value	Not applicable	Not applicable
Forward Contracts	Market valuation techniques The Company has used discounted mark to market of forward contracts using current forward rates for remaining tenure of the forward contract as provided by respective banks	Not applicable	Not applicable

There are no transfers between the levels

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company risk management framework. The board of directors is responsible for developing and monitoring the Company risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities, cash and cash equivalents, mutual funds, bonds etc.

The carrying amount of financial assets represents the maximum credit exposure.

Trade and other receivables

Around 48% of the sales are export sales. For major part of the sales, customer credit risk is managed by requiring domestic and export customers to pay advances before transfer of ownership, therefore substantially eliminating the Company's credit risk in this respect.

Based on prior experience and an assessment of the current economic environment, management believes that no provision is required for credit risk wherever credit is extended to customers.

Management believes that the unimpaired amounts that are past due by more than 6 months are still collectible in full, based on historical payment behaviour.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

(vi) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

(₹ in Lakhs)

Particulars	As at 31 st March, 2020		As at 31 st March, 2019	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement) - Gratuity	(170.73)	204.87	(139.62)	164.96
Future salary growth (1% movement) - Gratuity	201.65	(173.05)	162.68	(141.29)

The above sensitivity analyses have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the reporting date. In practice, generally it does not occur. When we change one variable, it affects to others. In calculating the sensitivity, project unit credit method at the end of the reporting period has been applied.

 VP - Quality Mr. Bhushan Rajput
 Anuh Pharma Ltd.
 E-17/3 & 17/4 Tarapur, Boisar Thane, Maharashtra

Dear Mr. Rajput:

The U.S. Food and Drug Administration (FDA) conducted an inspection at Anuh Pharma Ltd., FEI 3001174909, located at E-17/3 & 17/4 Tarapur, Boisar, Thane, Maharashtra, from 09/16/2019 to 09/20/2019. FDA has determined that the inspection classification of this facility is "no action indicated" ("NAI"). Based on this inspection, this facility is considered to be in an acceptable state of compliance with regards to current good manufacturing practice (CGMP).

This letter is not intended as an endorsement or certification of the facility. It remains your responsibility to ensure continued compliance with CGMP.

An inspection classification of NAI for CGMP compliance will not directly negatively impact FDA's assessment of any pending marketing application referencing this facility. Please note, however, that application approval will depend on a product- and application-specific facility assessment conducted by the appropriate CDER or CVM review office. This letter does not address or reflect FDA's decision making with respect to any potential non-CGMP compliance issues.

FDA has concluded that this inspection is "closed" under 21 CFR 20.64(d)(3), and we are enclosing a copy of the narrative portion of the Establishment Inspection Report (EIR). It may reflect reductions made by FDA in accordance with the Freedom of Information Act (FOIA) and 21 CFR part 20. This, however, does not preclude you from requesting additional information under FOIA.

If you have any questions regarding this letter, you may contact John Diehl, Director Compliance Branch via telephone at 2142535200 or email at John.Diehl@FDA.HHS.GOV. Sincerely,

Jose Martinez
